Beverly High School

Miss E. Antoinette Davis

TO Miss E. Antoinette Davis, one of the most gracious ladies ever to teach in Beverly High School, we dedicate our Year Book. Her forty-seven years of incalculable service to the youth of B. H. S. will long be remembered.

Miss Davis was born in Cleveland, Ohio, where she received her elementary and high school education. She then attended Denison University where she received the degree of Bachelor of Science. While visiting her close friend, Miss Jennie A. Cole, a teacher at Beverly High, in the summer of 1891, she was offered a position in the French Department of the high school. Fortunately for all concerned, Miss Davis accepted.

During the following years, she became a member of the famed Salon Francais, the New England Modern Language Association, and Head of her Department at B. H. S. She has furthered her *esprit francais* by trips abroad. In France, she became acquainted with the Head of the Junior Red Cross of France, Mlle. Lucie Pierrard. She has since visited and been visited by Mlle. Pierrard and maintained a happy correspondence with her, thus setting a noteworthy example of "hands across the sea."

Miss Davis retires this year, to the great loss of future students. Her constant optimism is seldom encountered. They will miss a wise, kind, loyal, and distinctly interested friend as we who have been associated with her well know. In departing, however, she takes with her the heartfelt gratitude and friendship of those thousands who have known her and benefited by the acquaintance.

When asked to give a message, Miss Davis said, "These have been forty-seven very pleasant years. I am very grateful to the boys and girls for their attitude and cooperation in the study of French."

To Miss Davis, we wish a long and happy respite, which she well-deserves.

"Remember the Day"

I BELIEVE we should all be very proud of our yearbook. It is peculiarly our own production: the literary, photographic, printing, assembling, and editing work are all ours. To those who have had a part in its making great credit is due. Hours of painstaking labor and still more hours of patient re-checking have been invested in this work by each of the departments named. The fee we pay for the book will cover only a fraction of its cost and the reason is that there are no labor charges by members of our staff. Give them a thank you!

On the other hand each one who has had the privilege of helping produce something worthwhile — whether in the making of this book or some other enterprise — has learned the value of careful, accurate work, — yes, the necessity for it, — and appreciates the satisfaction — second to none — of a job well done.

And now a word to the seniors. Our days of trying to guide you into the most upright and profitable ways of life in school are over. While we wish you "Bon Voyage" on the journey of life, we extend the offer of continued help to you if you ever desire it as long as we are able to give it. We shall follow you with keen interest, — grieve for your reverses and glory in your successes, — but always we shall hope for the best for you.

Editor's Foreword

By RHODA MURRAY

IT is with great pleasure that I have served this year as Editor of the *Senior Memoirs*. We of the staff have endeavored to publish a volume which will be an everlasting reminder of our classmates and school days at Beverly High School.

In behalf of the Senior Class, I wish to thank sincerely the members of the faculty and student body who have been so helpful in promoting the success of this publication. Miss Ebsen and her committee supported our Year Book handsomely by bringing in increased advertising; Miss John and her committee have devoted many hours of their time to securing subscriptions; and Miss Cronin and the staff worked steadily gathering and editing the manuscript. It is impossible to say anything to express adequately our appreciation of Mr. Nutting's supreme efforts and excellent results. He has photographed the entire Senior Class. He also has photographed the various Clubs in the school and has taken charge of all the cuts found within the covers of this book. Furthermore he has been the ever helpful adviser as to the correct format of the publication. Last, but not least, he has been the Business Manager of the *Memoirs*.

To Mr. Bloss and his boys of the Print Shop go many compliments for the printing.

Many members of the student body were too modest to sign their names to their literary achievements. Evelyn Forrant, Nora Buffett, and Addison Schade cooperated in the writing of the *Dedication*. Alberta Simms headed the committee who formulated the *Class Prophecy*. Richard Broderick worked out the *Chronology*. We are indebted both to Whitney Perkins for the article which he has written in behalf of the Senior Class in appreciation of our class adviser, Mr. MacInnis, and to Mary Lovett for her splendid history of the class of 1938.

In closing, I wish to thank all again for splendid cooperation. May the years to come bring not only true success but also happiness.

A Message to the Seniors

By Starr M. King
Superintendent of Schools

CONGRATULATIONS, Class of 1938, for completing the necessary requirements for graduation from Beverly High School. If it were a game of baseball you had been playing, I should say "good work" for managing to reach first base successfully. Perhaps some of you have reached this important station easily as the result of a resounding base hit; others may have gotten on as the result of an error by the teacher. However, you are there—you all stand equal in the eyes of the umpire and your attention is directed to the immediate responsibility of reaching second base. It may be that you will be fortunate enough to be pushed along through the assistance of someone else, but the skillful ball player will take advantage of his opportunities, will be alert to openings in order that second base may be reached through individual ability or knowledge acquired through many months or years of practice. As the coach on first base I am sincerely interested in your continued success and progress. Naturally, you will receive all sorts of advice from the sidelines, too, but I urge you most earnestly to think everything out for yourselves very carefully. This will be of the utmost importance in the shaping of your lives in the future.

To drop my metaphor—as Americans we are beset by a confusion of conflicting ideas, ideals, and policies. Competent, clear-thinking, unselfish leaders are needed everywhere—in education, business and particularly government. My hope is that each and every one of you will do your part to see that this is accomplished and that this American democracy be preserved and made a better place for us all to live in.

The Class of 1938

How fast in Memory's fond embrace,
Those days when first we met,
To tread with light and errant feet
The path we blithely set!
How sagely we have made our way
Upon our carefree quest,
Like children freed from old restraint,
Embarked in rampant zest,
To heed Adventure's bright allure,
Inquisitively bent,
To wrest completest trove of lore
From each bright hour we spent!
And so we sped from day to day,
Through glen and shadowed glade
Of fancy, side by side with fact,
To learn how they're assayed.
Beside a lazy, limpid stream,
We heard of Avon's Bard,
And learned of Arthur's Knights of Old,
On noble quest and hard.
We thrilled to gallant Ivanhoe,
And Don Quixote's feats.
We listened spell-bound to the words
Of Shelly, Poe, and Keats.
We studied music by a brook,
That sang its happy way
To tunes, composed by humming pines,
A sprightly minstrel lay,
Diapasoned by ancient oaks,
That somehow seemed to blend
The woodland noises into song,
A muse could not transcend.
A ruined, ivy covered Keep,
Deep in a mossy dell,
Recalled the spirits of the Past,
As though some eerie spell
Had reft the sepulchres of Time,

And brought us age by age,
Each satrap, pharoah, king, and lord
From History's yellow page,
We plucked the stately foxglove's frond,
And then we learned the part,
Played by its sere and mellow leaf,
In ailments of the heart;
And as we scanned each growing thing,
To laud its living green,
Science said, "That's chlorophyll.
It's charged with vitamine."
Thus on we roamed from spring to spring,
With ever-present thirst,
To quaff new knowledge from its depths,
Until it seemed we'd burst
With new imaginings, conjured
By partly hidden truth,
That beckoned, then receded,
To taunt unfallowed Youth.

And so from these familiar paths,
We now emerge, to gaze
Upon a broad and teeming plain.
At last our heedless days are over;
Our newly conscious thought
Must center on the way.
He profits most who serves the best,
By any means he may.
The life and not the living is
The thing to seek the most.
It's what we do, not what we get,
That justifies the boast,
That we were not found wanting but
Apace with Nature's plan,
We truly met the challenge when
The Boy became the Man.

Mr. MacInnis

FOUR years ago Mr. MacInnis was given the duty or the privilege (as he would have it) of being the Adviser of the class of 1938, then timidly entering the High School. Since then, his duties have been many and arduous, increasing from year to year, until, during our last few happy days in school, they became more exacting than ever. Nevertheless his interest in our affairs has been constant, his sympathy in our problems has been never-failing, and his words have always been encouraging. During the pleasant activities of Commencement Week, we shall not forget how much of our enjoyment was due to the hard work and careful planning of Mr. MacInnis.

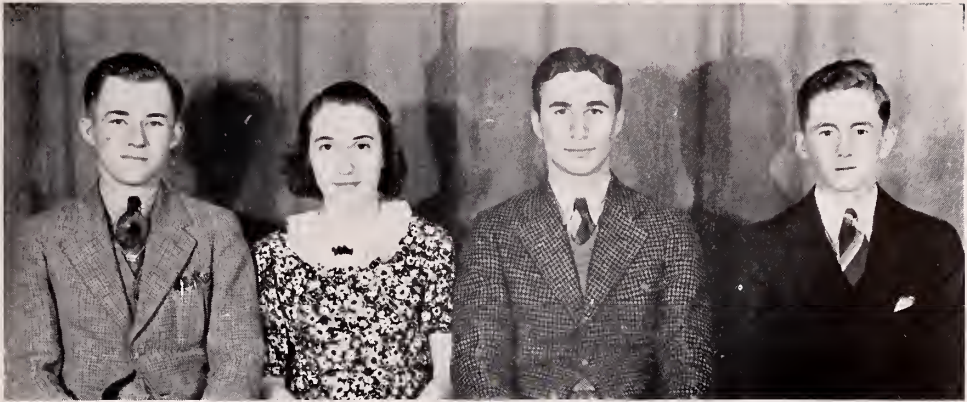

A Message to the Seniors

By JERRY DINARDO, *President of the Class of 1938*

IT was with a feeling of immense pride that I assumed the office of representing the class of 1938 last fall, not simply because of the honor that accompanies such a position, but because I had been elected to serve you. I hope I have lived up to your expectations—some of them at least.

Although class activities seem to end with graduation, the spirit and friendship, noticeable during our brief stay at Beverly High School will live beyond our school days. Such joys as we have experienced should remain forever as pleasant memories. We can only hope that the coming years will be as fruitful with genial relationships as these four have been.

Senior Class History

By MARY LOVETT

IN a few weeks the Class of 1938 will cease to exist as such. It will be divided into three hundred and fifty parts, each pupil to go his own way. Some of us will return to High School for another year, but for most of us graduation marks the end of our High School career. All of this means that High School experiences will soon take their place in some far recess of the mind along with other memories of the past. In an attempt to brush off an occasional cobweb, I record some of the events of the last four years.

To think of our Freshman year, calls to mind bewildering corridors, contrary lockers, towering upper classmen, and strange teachers. As soon as we had become acquainted with our new surroundings, and each other, we elected our first officers and held our first Class meeting. The officers who presided at the meeting were: President, John Barry; Vice President, Whitney Perkins; Secretary, Rhoda Murray; and Treasurer, Irvin Gordon. Our class adviser was also introduced to us for the first time—Mr. MacInnis.

Back again as Sophomores. Now the Class, familiar with its environment, began to make itself felt in every activity of the school.

Late in the fall we held our Sophomore social. The gym was decorated with our Class colors, blue and gold, and the Bay Stater Orchestra furnished the music for dancing. The affair was so successful it was repeated in our Junior year.

The following Sophomores were chosen to lead the Class during the Junior year: President, Addison Schade; Vice President, Jerry Dinardo; Secretary, Nora Buffett; and Treasurer, Irvin Gordon.

In our Junior year we participated in the first inter-class dramatic competition. It was a great success. Our entry was the one-act play, *The Florist Shop*. Although it did not win for us the banner, we were justly proud of our classmates who took part in it. The award for the best acting in our play was won by the heroine, Ruth May.

At the Senior Assembly of last year, six of our members were inducted into the National Honor Society in recognition of their achievement in "Character, Scholarship, Leadership, and Service." They were: Helen Crowe, Clifford Dennis, Virginia Lovett, Ruth May, Carolyn Merriam, and Edward Parkhurst.

As a result of the Junior election, our Senior officers are: President, Jerry Dinardo; Vice President, Irvin Gordon; Secretary, Nora Buffett; and Treasurer, Sheldon Norwood.

At last the Senior year, the busiest year of all. As Seniors, members of the Class assumed responsibility in all school organizations. Edward Parkhurst, President of the Council, presided at all the assemblies. The other officers of the Council, also members of the Senior Class, were: Vice President, Maynard Axelrod; Secretary, Virginia Lovett; and Treasurer,

Addison Schade. Two other active Seniors have been, Richard Buckley, Editor of the *Aegis*, and Patsy Bussone, President of the House of Delegates.

Our Senior social was held in October, and quite appropriately took the form of a Barn Dance. The idea proved very popular.

The Senior entry in the dramatic competition this year was a one-act comedy, *Back Stage*. The acting award this time went to George Chansky.

In athletics the Class of '38 achieved a better than average record. Our Captain Bill Cowles and several other team-mates from the Senior Class were members of the eleven. Though they did not beat Salem on Thanksgiving, the team tied the traditional rival in a 0-0 game.

In our four years at High School, many changes have taken place. The Freshmen have been transferred to Briscoe; the Seniors have adopted the custom of a Year Book, and have relinquished the Baccalaureate Service; henceforth members of the Council are to be elected by popular vote. After forty-seven years of splendid service, Miss Davis, friend and counselor to many generations of students, is resigning.

These highlights will help to remind us in future years of the happy days spent together as members of the Class of 1938.

Class Prophecy

WELL, folks, a couple of years ago in the summer of 1948, I began to get lonesome, in my old age, for some of the old school chums. Finally, longing to see the old pals again and to discover whether or not they had all become what they had so bravely set out to be, I decided to go back to old Beverly, and begin to hunt them up. When I got there, I hardly recognized the old place and barely had a chance to look at it, with these new fangled motorless automobiles dashing in front of me; but I finally reached the City Hall where I thought I could best receive information. I couldn't have made a better choice, for when I stepped up to the information desk who should be seated there but that old information bureau—Addison Schade himself. Just as he was inviting me to sit down, for old times' sake, the mayor stepped out of his office, and I was face to face with the Honorable Jerry Dinardo. Addison drove us to Charles Irving's Chinese restaurant SING (survival is not guaranteed); but, because we were old school pals, he took pity and did his best; so I am still here to tell you the whereabouts of as many old friends as we "triple tonguers" had time to discuss.

ON Friday evening, June 3, the Senior Class presented *Jonesy*. The play was selected by a committee of seniors who, after going to Boston to read many plays, finally selected *Jonesy*, a riotous comedy in three acts.

The cast gave a brilliant performance, worthy of any experienced troupe. Phyllis Gardner played the part of Anne Jones; Carmen Quint, Mildred Ellis; Norma Harvey, Mrs. Jones. Alfred Currier and Gordon Hurder played the parts of plumbers. Russell Rowell disguised himself as the father, Henry Jones. Warren Bradley excelled as Wilbur Jones, and George Chansky lived the part of Billy Morgan. Dorothy MacDonough, as Katie, fulfilled her role to the utmost. Rita Gaudreau was Diana Devreaux, a sparkling chorus girl; and Patsy Bussone was her uncle, Stanley Jackson. Ralph Walker showed himself to be an impressive policeman.

All scenery, lighting, and stage effects were handled by Mr. Garniss and the Stagecraft Club.

History of The Class of 1939

By JEANETTE DUCHARME

IN September 1935, three hundred and eighty-one students entered Beverly High School as freshmen. Such confusion!! A new faculty, lockers that would not open, and students searching in vain for their classrooms. Four years, and the last years for many of us, were ahead to be conquered.

In October of 1935 the Student Council entertained us with a dance.

As the first year came to a close, Miss Edith Moore was chosen to be our Class Adviser. Class elections were held and the results of the voting was as follows: President, Thomas Brothie; Vice President, Stanley Woodbury; Secretary, Helen Janotta; and Treasurer, Mabel Christopher.

As there were no freshmen that entered in 1936, we were still the "baby" class.

November was an appropriate setting for our barn dance, which was held November 20. The decorations which were suited to the occasion, added to a thoroughly enjoyable evening. Members of the class and guests, dressed as farmers and farmerettes, made a colorful scene. William Wiseman received a prize for the best costume.

For the first time in the history of the school, the sophomores participated in a dramatic competition with the upper classmen. We presented a farce entitled, *A Trysting Place* by Booth Tarkington. Those who took part were Mabel Christopher, Mary Burke, Barbara Cole, Michael Armento, Richard Thissell, Andrew Oberg, and Charles McCullough. Andrew Oberg was presented a medal for being the best actor. The audience was much pleased with the work of the "baby" class.

At the end of the Sophomore year, class elections were again held and the results were: President, Thomas Brothie; Vice President, Barbara Wallace; Secretary, Helen Janotta; and Treasurer, Mabel Christopher.

With the strains of *Aloha Oe*, the junior class commenced its social activities. A Hawaiian dance was held November 19. Appropriate music and decorations made the evening a pleasant one for all present.

On December 2, another dramatic competition was held. The Juniors presented a serious drama, *The Eldest*, by Edna Ferber. Those who took part were: Emily Taylor, Mary Trowt, Eliot Tozer, Alyce Dunean, Leon Cagan, Alice Cassell, and Richard Thissell. The class won the first prize, a banner; and Emily Taylor was awarded a prize for giving the best performance.

We are looking forward to a Senior year full of pleasant activity.

History of the Sophomore Class

By RUTH DUCHARME

ON December 3, 1937, the Sophomores presented a play in competition with the other classes. It was a one-act farce entitled, *The Eligible Mr. Bangs*.

Those taking part in the performance were Cynthia Hall as a young girl who set out to marry a bachelor and finally won out; Paul Kerans as Mr. Bangs, the eligible bachelor; Edward Hoy and Margaret Killcoyne who gave fine performances as Mr. and Mrs. Foster. Cynthia Hall received a prize for being the best actress in the play. Our class gave stiff competition to the winners, the Junior class.

The other great event in our year was the class election under the guidance of Miss Chynoweth and the Student Council. During the month of March the nominating committee was busy in selecting class members to run for office in the elections.

The elections took place March 29, 1938. The class officers for next year are as follows: Paul Kerans, President; Priscilla Roundy, Vice President; Ruth Ducharme, Secretary; Margaret Killcoyne, Treasurer. The chairmen of the committees are as follows: Raymond Overberg, Executive Committee; Frank Harrington, Social Committee; John Davey, Nominating Committee.

Miss Whalen—*Adviser*

THIS year the Student Council, through the cooperation of all, has had a very successful year. In an effort to promote school spirit, football rallies were held at the beginning of the year; they produced a lasting effect. The plea for wholehearted support for the class plays was not in vain; the hall was filled at that excellent performance.

This body, under the able supervision of Miss Whalen, offers the pupils a chance to improve the conditions of the students, and also to introduce any new ideas of government. Measures introduced in the House of Delegates are voted upon here; and if passed are sent to Mr. Pierce for approval.

The members annually publish the *B-Hive*, the invaluable guide to the incoming class. Later they direct the elections of the new group.

The meetings of the Council offer a fine opportunity for the careful discussion of important matters, and during the past year there have been many lively discussions.

THE House of Delegates, the representative body of the students, has been the scene of many lively debates during the past year. The members of this body are chosen in the homerooms soon after the opening of schools, so that the entire school is represented through homeroom delegates.

On the Wednesday morning preceeding the House meeting, questions are brought up in the homerooms and voted upon. If passed, each question is sent to the House, where it becomes a motion and is carefully considered, not only by the entire membership, but by a special committee. It is then voted upon. If approved, it goes to the Council. If the Council accepts, it is examined by Mr. Pierce. His acceptance makes it a law of the school.

This group works in harmony with the Council to effect improvements in our school. One of the joint accomplishments of the two bodies in 1938 has been the liberalizing of the election of Council members.

With "Quiet, please" and "Hurry along please" as passwords, the members go about their work quickly and easily. Every Monday morning the officers meet with Mr. Pierce to discuss any problems that have arisen.

A VERY popular club among the students is the Glee Club, under the supervision of Mr. Garniss. Talent trained in this group appears frequently at our assemblies. The purpose of the club is to give to these boys and girls who appreciate good music a chance to enjoy it. This group gave an excellent demonstration of their abilities Music Night in *Cox and Box* and *The Hit Parade*.

HAVE you ever visited the music room on any Tuesday afternoon? If you have, then you certainly know what goes on. If you haven't, then you will be interested in knowing what does take place there.

In this room, that is an exact copy of a Boston broadcasting studio, you will see and hear thirty or thirty-five band boys practicing the latest pieces with their beloved Mr. Phillips conducting. These boys work long and hard to provide music for such student activities as assemblies, plays, entertainments, football games, and parades.

Two years ago the band was badly in need of new uniforms; and as the funds were low, the members decided to produce a concert and entertainment at the Ware Theatre. Mr. Phillips secured some new music and the boys went to work with him and soon had every note "down pat." The affair was a big success and the boys were delighted with their brightly colored uniforms.

Much credit for the success of the organization should go to Mr. Phillips. He spends many hours with the band, and his witty remarks and jokes bring much enjoyment to the boys. When he was gravely ill and had to stay away from rehearsals for two months, every band boy in Beverly, Salem, Peabody, and Danvers missed him very much. To show their feeling for him and to express their wish for a speedy recovery, the bands sent him a gift.

The Beverly High School Band with its conductor, Mr. Phillips, would be missed very much if they did not exist.

A FAMILIAR sight at our assemblies is the B. H. S. Orchestra. This talented group of musicians plays also at outside musicales, and for school entertainments. Mr. Claude Phillips, the Director, has developed a group of musicians, of which the school should be very proud,

Dramatic Club

Russell Rowell—*President*
Barbara Stott—*Vice-President*
Phyllis Gardner—*Secretary*
Mabel Christopher—*Treasurer*
Rita Gaudreau—*Chairman, Program Committee*

THE Dramatic Club which is the largest organization of its kind in the school, has over two hundred and fifty members.

At our meetings we present various programs which will interest as well as educate our members. For example: Miss Cronin gives us interesting and enjoyable talks. At one of our meetings this year she demonstrated to us the use of theatrical make-up.

With a few exceptions, it is a custom to use club talent. Members presented a comedy, a satire, a tragedy, and a farce this year. Mr. John E. Hines of Boston was one outside entertainer, who did an exceptional piece of work in presenting a three act play called *The Taming of the Shrew*. Miss Verheilig, from the Curry School of Expression, also gave a stirring performance of readings and plays. Skits, songs, dances, recitations, impersonations, and pantomimes have been very popular on our programs.

Miss Christine Ebsen has been Miss Cronin's able and pleasant assistant for the year, helping in planning and directing all programs.

One of the most exciting events of the year was the tea dance which was held in the school gymnasium on May 20. The season of 1937-1938 was a most successful one in the opinion of the members and advisers.

The Stagecraft Club

Fred Browning, Addison Schade
Edward Rice, Melvin Gulbrandsen, Robert Kilham
Benjamin Ober, Louis Cortucci

Mr. Garniss—*Director*

THE club makes the necessary scenery for all school plays and assemblies. It did the stage work for many outside organizations during the school year.

They also did the stage work for the play *Bermuda Bound*. The elaborate form of curtain work was demonstrated at one of the Dramatic Club meetings, by Mr. Garniss. The boys learned much from this performance about the use of drop curtains.

The club has certain rules of eligibility which were formulated at one of the meetings. They also planned simple uniforms for use in work that brings them in contact with the general public.

Next year the club plans to experiment with lighting of plays, for artistic and emotional effects.

Debating Club

Miss Stiles—*Adviser*

THE Debating Club, with the assistance of the Dramatic Club, successfully sponsored and presented an assembly program in which a hit and run case was portrayed in a courtroom. This trial was written by Warren Bradley, a member of the Debating Club.

The club has attempted to replace the formal type of debating by a forum method of discussion. Two Round Table discussions were held this year on the question of Naval Rearmament—one among the club members and the other between Malden and Beverly High School. The club is also thinking of changing the name from the Beverly High School Debating Club to the Student Forum. Next year the new Student Forum hopes to hold meetings, at which any students of the school, who are interested, will be invited to participate and discuss current events and other important questions of the day.

The Radio Club offers to its members the opportunity to consider problems of theory, design, construction, and operation of various units of radio equipment. This year it has been primarily concerned with the public-address system which is familiar to most of the members of the school. This system, which we call the "rack" has served the school assemblies, at various club presentations, and at the basketball games.

The individual projects of the members include broadcast and short-wave receivers, five-meter or ultra high frequency sets, speech amplifiers, and a complete superheterodyne. The club has served to arouse a real technical interest in certain of the members. One has recently graduated from the Eastern Radio Institute, and another has just entered the Massachusetts Television Institute. One of our former members is with the National Television in Kansas. Thus the Radio Club besides accomplishing its service to the school has given its members wide and varied knowledge of modern radio applications.

LE CERCLE FRANCAIS, under the direction of Miss Davis, Miss Russell, and Miss Wolfe, is one of the most interesting clubs. Only French is spoken at the meetings. As a result many amusing situations arise in the course of the year.

This year *Sans Famille*, a French moving picture, was presented by the club for the French students of the school. The members also presented an interesting play, *L' Ete de Sante-Martin* at an assembly.

This club gives its members a chance to employ everyday French, an opportunity which cannot be offered to any great extent in the regular French classes.

THIS year the Latin Club, under the direction of Miss Sears, has put on many varied programs for its members. The meetings were planned to coincide with the important happenings of each month. The first meeting in October we were entertained with slides, depicting the travels of Aeneas, which were lent to us by the Salem Latin Club. At our Hallowe'en party, late in October, the members' fortunes were told by soothsayers. We also played games and served refreshments. After Thanksgiving a short skit, *Ceres and Proserpina*, was written and presented by one of the club members. At Christmas time we had a Saturnalia skit, *In Terra Pax*, presented by the Juniors. Santa Claus arrived with a gift for each member. In February the significance of St. Valentine's Day was told and also the story of Cupid and Psyche. We had a patriotic program on February 17 at which we saluted the flag and sang *America* in Latin. We compared Lincoln with Cicero, and Washington with Caesar. We entertained Salem in March with a Latin Radio program. Because of the Ides of March, we devoted the March meeting to Cacsar. On the twenty-first of April we observed the birthday of Rome. To end our year's activities the club had a banquet in June.

THE club was organized in 1930 under the direction of Mr. Gaylord.

At many of the meetings an outside speaker, frequently a former graduate who has made good in some branch of business, addresses the group. The first speaker this year was the Club Sponsor, Miss Hatch, who told of the life in the mountains of Kentucky, and of her work as secretary at the Caney Creek Community Center. As a result of this talk, in which she told of the great need among the Southern mountain people, the Club at Christmas time sent a box of clothing, books, and toys to Caney Creek.

The other speakers and their topics were: Miss Elizabeth Perrigo, *The Difference in Private and Public Work*; and Miss Ruth Merritt, *A Secretary's Daily Duties*. The talk by our Principal, Mr. Pierce, in which he compared the human life to the diamond, especially interested and inspired the members.

Several field trips to different plants form a very interesting and instructive part of the club program. Each year the Club has presented a play, the one this year being entitled *Let's Make a Budget*. The characters were: Mr. Kirby—Business Man, Harry Mitchell; Mrs. Kirby—his wife, Evelyn Coult; Jack Kirby their son, Richard Coult; Olive Kirby—their daughter, Jeannette Ducharme; and Mrs. Wright, a neighbor, Edith McKenzie.

Science Club

First Row—John Taylor, Irving Barter, Patsy Bussone, William Matthews, Norman Macaulay, Wilbur Teague, John Conant, Clarence Kulberg.

Second Row—Philip Askman, Maynard Axelrod, Frances Dimond, Edward Parkhurst, Paul Woodberry, Stanley Woodbury, Rodney Preston, Stephen Woodbury, Wallace Weeks.

THE glow of the bunsen burner, the clinking of test tubes, the smell of gases, and the bubbling of reactions—all are familiar to the members of the Science Club. This club meets once a month under the capable sponsorship of Miss Hird, to learn of all sorts of scientific matters. Each meeting is devoted to some special topic which is often more closely examined by later experiments and talks by the various members. This year we have held especially interesting meetings on solutions, the Halogens, crystals, and rare metals.

At some of our meetings, however, we have enjoyed interesting talks from outside sources. For example Mr. Wilkinson, a Beverly inventor, spoke to us concerning his latest ideas; Mr. Matthews, an amateur geologist, talked on Mineral Mining; Mr. Pierce, our Principal, spoke on two occasions: His first subject was *Science in the Modern Automobile*; his second was *Science in the Wild*. Mr. Johnson, a chemist, spoke on the operation of the Beverly-Salem Filtration Plant. Most of these lectures were illustrated.

Mathematics Club

First Row—Warren Day, Harold Fish, Patsy Bussone, Richard Roundy, Maynard Axelrod, Allen Brown, Cheever Cressy, Paul Resnick.

Second Row—Wm. Dickey, Samuel Toll, Charles McNeil, Richard Ward, Wallace Weeks, Miss Hett, Warren Batchelder, Miss Chynoweth, John Jorgensen, Leon Cagan, Malcolm Dodge, Charence Martin, Wm. Glovsky.

OF the organized clubs of Beverly High, the Mathematics Club has probably been the most instructive as well as the most interesting. The Club has been of great assistance to those students who have needed help in College Mathematics as well as to those who have desired to become skilled in a particular branch of the subject. This year, as in former years, the Mathematics Club, has consisted of two separate divisions: the Algebra division, under the able supervision of Miss Chynoweth, and the Slide Rule Club, sponsored by Miss Hett. Miss Chynoweth has trained her group in review and advanced algebra, while Miss Hett has taught the members of her group to multiply and divide with the rule as based on the principles of logarithms and powers. The members of the latter division, besides having been taught to obtain the square and cube roots of numbers, have been taught to use the natural functions on the slide rule. This year, for the first time in the fourteen years of its existence, the Mathematics Club has had no girls in either division.

Photocraft Club

Front Row—Andrew Oberg, David Wood, Richard Knight, Helene Bernson, Walter Hamilton, Philip Fowler, Robert Porter.
Back Row—Alwyn Waite, Kenneth Foss, Raymond Beeman, Donald Marley, Harold Turner.

Mr. Nutting—*Adviser*

THE Photocraft Club is busy throughout the year. In the autumn, the members are busy "shooting" at the football games; in the winter, basketball; in the spring, baseball and track. A member of this club is always on hand with a camera, to the chagrin of many of the students. The pictures for our Year Book were taken by this group under the capable supervision of Mr. Nutting.

At our meetings various kinds of photography are discussed. Outside speakers well versed in this art have given us instructive lectures. One of the most interesting projects was the contest conducted for a cut for *Senior Memoirs*. Andrew Oberg submitted the winning photograph, which is used as the frontispiece.

The members have come to look upon photography in its rightful sphere, both as a science and as an art.

Home Economics Club

Shirley Clark, Dorothy Troubetaris, Bertha Rosum, Mary Vitale, Olivia Churchill, Ellen Minutello, Louise Goss, June Berry, Laurice Stratton, Miss Jefferies, Helen Pickett, Virginia Mitchell, Katherine Foster, Lorraine Tremblay, Carol Morse, Annie Trefry.

Caroline Morse—*President*
Laurice Stratton—*Vice President*
Virginia Mitchell—*Secretary and Treasurer*

IN September 1937 the Home Economics Club was organized for Seniors under the direction of Miss Jefferies. The purpose of the club is to make the girls more interested in the arts of Home Economics. During the year, the members have heard interesting speakers. They also spent part of the time in making toys and scrapbooks for sick children in the hospital, and making the latest style clothes for their own use.

The Audubon Club

Catherine Di Vincenzo, Lydia Blanchard, Miss Hobbs, Barbara Currier, Hazel Cullen, Margery Cooper.

THE Audubon Club is for pupils who are interested in nature, especially in birds. Their club is connected with the Massachusetts Audubon Society. The dues of ten cents are sent to the State association, and in return each member receives a membership button and six four-page leaflets, each with a beautifully colored plate, an outline drawing to color, and an illustrated text.

The activities of the club include indoor meetings and field trips. At the meetings birds are studied from colored plates and charts, and questions relating to the birds are discussed. Among these subjects are the benefit of birds to us, the ways of attracting birds around our homes, and of protecting them when they come.

On the field trips, the members learn to identify birds by their colors, their flight, and their songs. On the field trips during the fall and winter the club members study the various kinds of seeds which will furnish food for the birds during the winter months.

Under the guidance of Miss Hobbs, this club has grown in scope and membership. It gives opportunity to students interested in particular phases of Nature, to study flowers and birdlore.

Boys' Rifle Club

First Row—Robert Woods, Thomas Archung, David Smith, Arthur Harlow, Edmond Doucette.
Second Row—Edward Whitman, Herman Spear, Mr. Howard, Bernice Williams, Eli Tremblay.

THE members of the Boys' Rifle Club, under the direction of Mr. Howard, have built a rifle range in the basement of the school. This range has six targets; with a maximum firing distance of one hundred and twenty-five feet. Starting early in the school year, the boys worked diligently at every meeting, trying to get it completed. The work went along at a great rate, and the range would have been finished earlier than it was, had the steel backstop arrived on time. The boys were held up quite a while because of the delayed arrival of its most essential part. Hereafter the Club will have good times shooting for prizes or for fun during the course of the school year. Also the practice will improve the vision of the boys and will teach them how to handle a gun.

A supplementary course is in first aid and camping, the selection of a camp site, and all the most important parts of camp or outdoor life.

This organization is well worth the time spent on it.

Parliamentary Procedure

Back Row—Moses Knowlton, Arthur Muldoan, Jerry Dinardo, Wm. Glovsky, George Chansky, Warren Bradley, Russell Rowell, Fred Browning, Paul Resnick.
Front Row—Caroline Chipman, Florence Thompson, Mary Hood, Dorothy Tribou, Phyllis Gardner, Marion Roundy, Mary Burke, June Rogers.

THE class in Parliamentary Procedure was organized for the purpose of better acquainting class, club, and home room officers with the fundamentals of Parliamentary Law. This club was introduced to the members of the school this year by Miss Stiles, assisted by Miss Cronin. Two classes were offered, in order to accommodate all pupils wishing to join.

Numerous suggestions were brought up, some of which were transmitted to the House of Delegates, where they were acted upon. At every meeting a new chairman and a new secretary were selected by the group, in order to give more persons experience as to how a meeting should be conducted. Amendments, postponements, and withdrawals were practiced until the students felt quite at ease. As the meetings were interesting as well as instructive, all those attending should be able to preside, to record, and to discuss in an orderly and efficient way.

B. H. S. "News"

THE B. H. S. *News* staff is made up of the boys taking Civic Training English in Mr. Root's classes. They learn how to gather and write up current news events about the High School. This paper is printed in our shop and is sold every other week in the school. The staff learns much about the work of newspaper men and the managing of a newspaper office. It also helps the members to understand the duties of reporters. The *News* offers the boys many opportunities to learn the fine points and offers the school a good paper at a low price.

Careful reading and checking go on, in the *Aegis* office before it is sent to the Printing Department. Then all galleys must be proof-read before the final publication. Such work gives the Board experience in editing and correcting manuscript; and the Shop Boys; in printing. The literary work is under the supervision of Miss Phinney; the printing, under Mr. Bloss; the business management, Mr. Gaylord.

Yearbook Name Contest

EARLY in the school year, if you remember, a ballot was given to every senior to vote on names which had been submitted for a Yearbook Staff.

Soon after these votes had been counted and the winners were announced, a staff meeting was called. At this meeting the ways and means of getting a suitable name were discussed. It was decided to appoint a committee and conduct a contest to get a suitable name.

This committee took control immediately, and at its first meeting it was decided to have passed out to the students, blanks with space for three suggestions. After the students had written their suggestions, the committee went over all the names submitted. From these nine hundred or more, they finally took what they considered to be the best ten.

A committee of faculty and students was then appointed, and these ten names were given to them. From these ten names the second committee selected what they considered to be the best three. They were: The *Syb*, meaning Senior Yearbook, the *Sigea*, Aegis spelled backwards, and the *Crest*.

When these names were submitted to the school, it was said that they were not the best that could be obtained. The committee, therefore, held a second contest.

When all the new suggestions were sent in, the committee again went over *all* the names submitted, both the first and second time. From these, ten more were found to be suitable. These were given to the faculty and student committee again, and they agreed upon: The *Beverly Hi-Lights*, *Senior Memiors*, and The *B. H. S. Yearbook*.

These were submitted to the school, and the school found *Senior Memiors* to be the most suitable name.

Ironically enough, the committee suggested the name that won. This committee was as follows: Richard Broderiek, Chairman, Lawrence Rea, Rachael Sanborn, Gordon Hurder, Sheldon Norwood, Robert Parsons, Rosamond Page, Addison Schade, Edythe MaeKenzie, Jeanette Ducharme, Waldo Dodge, Phillip Fowler, Marion Roundy, Richard Cressy, and Wentworth Murray.

The committee of faculty and students was: Miss Whalen, Miss Ellis, Mr. MaeInnis, Rhoda Murray, Editor, and Jerry Dinardo, Class President. They should be complimented for the fine work they did in selecting the best three names.

April 22 at Lynn Classical
April 27 at Haverhill
*April 30 Lawrence

Second Row—Edith Powers, Nellie Charezun, Alice Duncan, June Jorgensen, Barbara Wallace, Capt. Ruth Peterson, Alice Winslow, Vanessa Spencer, Priscilla Morse, Priscilla Osborn.

Miss Eva Teague—*Coach*

A TRIFLE disappointing after the pre-season prognostications had pointed toward a successful season, the girls concluded their season; the varsity with a 50% average and the seconds with a 40% average.

The one bright spot of the season was the performance of Captain Wallace who scored 206 points in baskets and 24 foul shots, an average of 20.6 points per game. She netted 91 baskets. The rest of the scoring was accounted for by Nellie Charezun, who sank 52 baskets and 8 foul shots for a total of 112 points.

The second team started off in a better fashion. After winning several games, the season was hectic; for of the remaining six games, they won only one game.
